Copyright 2002 Sun Microsystems, Inc., 4150 Network Circle, Santa Clara, California 95054, U.S.A. All rights reserved.

Sun Microsystems, Inc. has intellectual property rights relating to technology embodied in the product that is described in this document. In particular, and without limitation, these intellectual property rights may include one or more of the U.S. patents listed at <http://www.sun.com/patents> and one or more additional patents or pending patent applications in the U.S. and in other countries.

This document and the product to which it pertains are distributed under licenses restricting their use, copying, distribution, and decompilation. No part of the product or of this document may be reproduced in any form by any means without prior written authorization of Sun and its licensors, if any.

Third-party software, including font technology, is copyrighted and licensed from Sun suppliers.

Parts of the product may be derived from Berkeley BSD systems, licensed from the University of California. UNIX is a registered trademark in the U.S. and in other countries, exclusively licensed through X/Open Company, Ltd.

Sun, Sun Microsystems, the Sun logo, AnswerBook2, docs.sun.com, OpenBoot, Sun StorEdge, Sun Enterprise, Sun Blade, Sun Fire, Netra, Ultra, and Solaris are trademarks or registered trademarks of Sun Microsystems, Inc. in the U.S. and in other countries.

All SPARC trademarks are used under license and are trademarks or registered trademarks of SPARC International, Inc. in the U.S. and in other countries. Products bearing SPARC trademarks are based upon an architecture developed by Sun Microsystems, Inc.

The OPEN LOOK and Sun™ Graphical User Interface was developed by Sun Microsystems, Inc. for its users and licensees. Sun acknowledges the pioneering efforts of Xerox in researching and developing the concept of visual or graphical user interfaces for the computer industry. Sun holds a non-exclusive license from Xerox to the Xerox Graphical User Interface, which license also covers Sun's licensees who implement OPEN LOOK GUIs and otherwise comply with Sun's written license agreements.

U.S. Government Rights—Commercial use. Government users are subject to the Sun Microsystems, Inc. standard license agreement and applicable provisions of the FAR and its supplements.

DOCUMENTATION IS PROVIDED "AS IS" AND ALL EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT, ARE DISCLAIMED, EXCEPT TO THE EXTENT THAT SUCH DISCLAIMERS ARE HELD TO BE LEGALLY INVALID.

Copyright 2002 Sun Microsystems, Inc., 4150 Network Circle, Santa Clara, California 95054, Etats-Unis. Tous droits réservés.

Sun Microsystems, Inc. a les droits de propriété intellectuelle relatants à la technologie incorporée dans le produit qui est décrit dans ce document. En particulier, et sans la limitation, ces droits de propriété intellectuelle peuvent inclure un ou plus des brevets américains énumérés à <http://www.sun.com/patents> et un ou les brevets plus supplémentaires ou les applications de brevet en attente dans les Etats-Unis et dans les autres pays.

Ce produit ou document est protégé par un copyright et distribué avec des licences qui en restreignent l'utilisation, la copie, la distribution, et la décompilation. Aucune partie de ce produit ou document ne peut être reproduite sous aucune forme, par quelque moyen que ce soit, sans l'autorisation préalable et écrite de Sun et de ses bailleurs de licence, s'il y en a.

Le logiciel détenu par des tiers, et qui comprend la technologie relative aux polices de caractères, est protégé par un copyright et licencié par des fournisseurs de Sun.

Des parties de ce produit pourront être dérivées des systèmes Berkeley BSD licenciés par l'Université de Californie. UNIX est une marque déposée aux Etats-Unis et dans d'autres pays et licenciée exclusivement par X/Open Company, Ltd.

Sun, Sun Microsystems, le logo Sun, AnswerBook2, docs.sun.com, OpenBoot, Sun StorEdge, Sun Enterprise, Sun Blade, Sun Fire, Netra, Ultra, et Solaris sont des marques de fabrique ou des marques déposées de Sun Microsystems, Inc. aux Etats-Unis et dans d'autres pays.

Toutes les marques SPARC sont utilisées sous licence et sont des marques de fabrique ou des marques déposées de SPARC International, Inc. aux Etats-Unis et dans d'autres pays. Les produits portant les marques SPARC sont basés sur une architecture développée par Sun Microsystems, Inc.

L'interface d'utilisation graphique OPEN LOOK et Sun™ a été développée par Sun Microsystems, Inc. pour ses utilisateurs et licenciés. Sun reconnaît les efforts de pionniers de Xerox pour la recherche et le développement du concept des interfaces d'utilisation visuelle ou graphique pour l'industrie de l'informatique. Sun détient une licence non exclusive de Xerox sur l'interface d'utilisation graphique Xerox, cette licence couvrant également les licenciées de Sun qui mettent en place l'interface d'utilisation graphique OPEN LOOK et qui en outre se conforment aux licences écrites de Sun.

LA DOCUMENTATION EST FOURNIE "EN L'ÉTAT" ET TOUTES AUTRES CONDITIONS, DECLARATIONS ET GARANTIES EXPRESSES OU TACITES SONT FORMELLEMENT EXCLUES, DANS LA MESURE AUTORISEE PAR LA LOI APPLICABLE, Y COMPRIS NOTAMMENT TOUTE GARANTIE IMPLICITE RELATIVE A LA QUALITE MARCHANDE, A L'APTITUDE A UNE UTILISATION PARTICULIERE OU A L'ABSENCE DE CONTREFAÇON.

Sun StorEdge™ PCI Dual Ultra3 SCSI Host Adapter Release Notes

These release notes contain essential information you need for installing and using the Sun StorEdge PCI Dual Ultra3 SCSI host adapter. The information in these release notes supplements the *Sun StorEdge PCI Dual Ultra3 SCSI Host Adapter Installation Guide* (part number 816-2156).

This document contains the following sections:

- “Qualified Platforms” on page 2
- “Bootability” on page 2
- “Qualified Cables” on page 3
- “Known Limitations” on page 3
- “Downloading and Installing the Driver Packages, Patches, and Documentation” on page 4

Qualified Platforms

The supported host platforms for this product are:

- Netra™ 20 server
- Netra t 1400/1405 server
- Sun Blade™ 1000 workstation
- Sun Blade 2000 workstation
- Sun Enterprise™ 220R server
- Sun Enterprise 250 server
- Sun Enterprise 420R server
- Sun Enterprise 450 server
- Sun Fire™ 280R server
- Sun Fire V480 server
- Sun Fire V880 server
- Sun Fire 4800 server
- Sun Fire 4810 server
- Sun Fire 6800 server
- Sun Fire 12K server
- Sun Fire 15K server
- Ultra 60 workstation
- Ultra 80 workstation

This product supports the following storage systems:

- Sun StorEdge 3310 SCSI array
- Sun StorEdge D2 array
- Sun StorEdge S1 array

This product supports the following operating environments:

- Solaris™ 8 and Solaris 9 operating environments and later with the Recommended Patch Cluster

Bootability

To boot a host through a Sun StorEdge PCI Dual Ultra3 SCSI host adapter, follow the procedures in Chapter 2, “Enabling the Host to Boot Through the Host Adapter” in the *Sun StorEdge PCI Dual Ultra3 SCSI Host Adapter Installation Guide*, part number 816-2156-11 or later version. An online copy of the installation guide is available from the website listed in “Software and Documentation Download Sites” on page 4.

Qualified Cables

TABLE 1 lists the qualified cables for connecting the Sun StorEdge 3310 SCSI and Sun StorEdge D2 arrays, and TABLE 2 lists the qualified cables for connecting the Sun StorEdge S1 array to the Sun StorEdge PCI Dual Ultra3 SCSI host adapter.

You can order cables using the *marketing* part numbers shown in the tables. You can use the *manufacturing* part numbers in the table to determine whether any already-purchased cables are supported. Do this by comparing the provided numbers against the manufacturing part numbers that are stamped on the cables.

TABLE 1 Qualified Cables for the Sun StorEdge 3310 and Sun StorEdge D2 Arrays

Cable Type and Length	Marketing Part Number	Manufacturing Part Number
SCSI, VHDCI/VHDCI, 0.8 m	X1136A	530-2982-01
SCSI, VHDCI/VHDCI, 1.2 m	X1137A	530-2983-01
SCSI, VHDCI/VHDCI, 2 m	X1138A	530-2538-01
SCSI, VHDCI/VHDCI, 4 m	X3830B	530-2984-01
SCSI, VHDCI/VHDCI, 10 m	X3831B	530-2985-01

TABLE 2 Qualified Cables for the Sun StorEdge S1 Array

Cable Type and Length	Marketing Part Number	Manufacturing Part Number*
SCSI, HD-68/VHDCI, 0.8 m	X1132A	530-2452-02
SCSI, HD-68/VHDCI, 2 m	X3832A	530-2453-02
SCSI, HD-68/VHDCI, 4 m	X3830A	530-2454-02
SCSI, HD-68/VHDCI, 10 m	X3831A	530-2455-02

* Cables with part numbers ending with -01 are not supported for use with the Sun StorEdge S1 array.

Known Limitations

- **Bug 4636710:** PCI dynamic reconfiguration on a Sun Fire V880 server is not supported with the Sun StorEdge PCI Dual Ultra3 SCSI host adapter.

Documentation Issues

The following corrections apply to the *Sun StorEdge PCI Dual Ultra3 SCSI Installation Guide*, 816-2156-11:

- In the screen example in Step 3 on page 29, the slice should be 7, as shown in the following screen example.

```
# ufsdump 0f - /dev/rdisk/c0t0d0s7 | ( cd /mnt;ufsrestore -rf -)
```

- In Table B-1, “Physical Dimensions,” on page 37, meters should be millimeters.

Downloading and Installing the Driver Packages, Patches, and Documentation

TABLE 3 lists the web sites from which you can download the driver, required patches, and documentation

TABLE 3 Software and Documentation Download Sites

Software	Download Web Site	Notes
Driver	www.sun.com/software/download	See “Downloading and Installing Driver Packages and Patches.”
Patches	www.sun.com/sunsolve	
Documentation	www.sun.com/products-n-solutions/hardware/docs/Network_Storage_Solutions/Adapters docs.sun.com	The <i>Sun StorEdge PCI Dual Ultra3 SCSI Host Adapter Installation Guide</i> is posted at these sites, and the translated versions of these release notes will be posted at these sites when they become available.

TABLE 4 shows the required driver packages and patches.

TABLE 4 Driver Packages and Patches for Solaris 8 and 9 Operating Environments (Task Map)

	Name	Where Described
Driver Packages	Sun StorEdge PCI Dual Ultra3 SCSI Host Adapter, version 1	<ul style="list-style-type: none"> • “To Download and Install the Driver Packages” on page 6
Patches	<ul style="list-style-type: none"> • The appropriate Solaris Recommended Patch Cluster for the version being used • The latest S9 QUS Driver Patch #112706-XX • The latest S8 QUS Driver Patch #112697-XX 	<ul style="list-style-type: none"> • “To Download and Install the Solaris Recommended Patch Cluster” on page 7 • “To Download and Install the Driver Patch” on page 8

▼ To Download and Install the Driver Packages

1. **Log into the host to be connected to the array.**
2. **Go to `www.sun.com/software/download`.**
3. **At the bottom of the middle column, under “Browse All Products” click “View All.”**
4. **Find “Sun StorEdge PCI Dual Ultra3 SCSI Host Adapter v1.0” in the “ALL PRODUCTS LIST,” and click the link.**
5. **If you have not already registered, click the “Register” button, complete the registration form, and click the second “Register” button when done.**
6. **Enter your “Personal ID” and “Password,” and click the “Log In” button.**
7. **On the Legal/License Agreement page, read the License Agreement and click “Accept” and “Continue” when done.**
8. **Find the table of files to download for the version of the Solaris operating environment on which you are installing the driver.**

On the Sun StorEdge(TM) PCI Dual Ultra3 SCSI Host Adapter 1.0 page, find the packages listed under the column heads for one of the following operating environments:

- Solaris 8/SPARC Platform
- Solaris 9/SPARC Platform

9. **Download the two required packages and download the README file.**

For 32-bit and 64-bit configurations, download the following two files:

- `SUNWqus.tar.Z`
- `SUNWqusu.tar.Z`

For a 64-bit configuration also download the following two files:

- `SUNWqusx.tar.Z`
- `SUNWqusux.tar.Z`

For the README, download the following file:

- `PCI_HBA_ReadMe.txt`

a. Double-click on the link to each desired file.

b. **In the “Save As” dialog box, enter a destination directory for the file, and click the “OK” button.**

10. **Follow the instructions in the README to install the packages.**

The sequence in the instructions is as follows:

- a. Uncompress the downloaded `zip` files.
- b. Extract the packages from the `tar` files.
- c. Install the packages.
- d. Reboot with the `-r` option to reconfigure the system.

▼ To Download and Install the Solaris Recommended Patch Cluster

1. Log into the host to be connected to the array.
2. In a browser, go to `www.sun.com/sunsolve`.
3. Under “SunSolve Contents” on the “SunSolve Online” page, click “Product Patches.”
Under “Browse & Download Patches” → “Solaris patches,” click on “Recommended and Security Patches.”
4. Read the SOFTWARE LICENSE AGREEMENT and click the “Agree” button.
5. In the “Recommended & Security Solaris Patch Clusters for Solaris” table, find “Solaris 8” or “Solaris 9” in the OS column, and click “View Readme.”
6. Print or save the `Readme` from the browser window.
7. Click the browser’s “Back” icon to return to the previous page.
8. In the row that begins “Solaris 8” or “Solaris 9” in the “Recommended & Security Solaris Patch Clusters” table, click “HTTP” or “FTP” (as desired) next to “Download Cluster.”
9. In the “Save As” dialog box, enter a destination directory for the patch cluster, and click the “OK” button.
10. Follow the procedure in the “INSTALLATION INSTRUCTIONS” section in the `Readme` to install the patches.

▼ To Download and Install the Driver Patch

1. **Log into the host to be connected to the array.**
2. **In a browser, go to `www.sun.com/sunsolve`.**
3. **Search for and download the latest version of patch ID #112706-XX (S9) or patch ID #112697-XX (S8).**
 - a. **Under “SunSolve Contents” on the “SUNSOLVE ONLINE” page, click “Patchfinder.”**
 - b. **Under “Patch Finder” at the top of the “SUNSOLVE ONLINE Patches” page, enter the number of the patch in the search field, and press the “Find Patch” button.**
 - c. **Print or save the `Readme` from the browser window.**
 - d. **Click either the HTTP or FTP link in “[Download Patch (*N,NNN,NNN* bytes) HTTP FTP].”**
 - e. **In the “Save As” dialog box, enter a destination directory for the patch cluster, and click the “OK” button.**
